In the Matter of:

PURCHASED WATER ADJUSTMENT FILING)
OF THE FARMDALE WATER DISTRICT) CASE NO. 7465-1

O R D E R

On January 3, 1985, the Commission issued its Final Order in Case No. 7465-1, Purchased Water Adjustment filing of the Farmdale Water District ("Farmdale"). Within that Order, the Commission ordered Farmdale to file amended 1982 and 1983 Annual Reports within 90 days to correct overstated sales volumes. A review subsequent to the 90-day period reflected that this Order had not been complied with; therefore, on September 9, 1985, the Commission issued an Order requiring Farmdale to make the necessary amendments within 30 days.

On October 10, 1985, Farmdale filed a motion setting forth reasons why it could not comply with the Order of September 9, 1985, and requested to be excused from compliance. It is apparent from statements contained within that motion that, due to line breaks, billing errors and billing adjustments, the information necessary to make the corrections would be extremely expensive and difficult to obtain. Therefore, the Commission will, in this instance, excuse Farmdale from such compliance. However, the Commission cautions Farmdale that future inaccuracies and the inability to correct them will not be tolerated or excused and

penalties may be imposed pursuant to KRS 278.990. Farmdale should take immediate action to assure that its records are maintained in such a manner that errors of this nature will not occur in the future and should report to the Commission within 90 days outlining the steps that have been taken to prevent such errors.

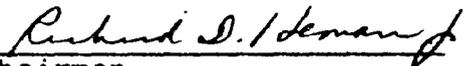

IT IS THEREFORE ORDERED that:

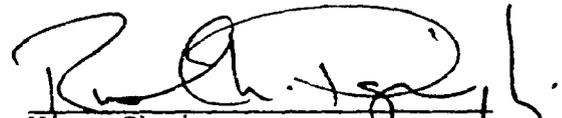

1. Farmdale is hereby excused from complying with the Commission's Order dated September 9, 1985.

2. Farmdale shall, within 90 days, file a report outlining the action that has been taken to assure future errors of this nature do not occur.

Done at Frankfort, Kentucky, this 15th day of November, 1985.
